

# CLEAN IT UP!

Now available from ACS the **Pressure Sprayer** has been specifically developed to resist harsh chemical solvents. Its industrial grade quality ensures long life in professional applications.

## Ideal for cleaning:

- Bell Housings
- Flywheels
- Clutch Forks
- Brake Components
- Mechanical Parts
- General Workshop Use

**Quality European  
manufactured for  
professional use &  
designed to last!**

Keeping surfaces clean & free from contaminants ensures the best possible start to life for any new clutch installation and assists in reducing any potential warranty issues due to contamination.
